

Convenience, durability and reliability make SureShot FlexoShot refrigerated dispensers the ideal self-serve solution for a variety of liquids including cream, milk, ready-to-drink cappuccino and coffee blends, beverage bases, etc.

With the flexibility to choose product bags or refillable containers, you'll appreciate bulk product cost savings, improved sanitation and reduced labor costs thanks to a reduction in refill frequency.

The optional *Illuminated Display* features an eye-catching main door display area that can easily be customized with your marketing message.

Your customers will enjoy faster service, improved convenience and great tasting beverages with every visit!

AC330-SS

- External SureTouch temperature display and adjustment capability.
- Catch tray and safety door latch included.

- Proven refrigeration system ensures consistent product quality, optimal shelf-life and sanitation.
- USA and Canada-wide Technical Service Network with SureShot Technical Assistance Center support.
- Illuminated cup targets (included with optional *Illuminated Display* feature) enhance the service area and offer better visibility and convenience.
