

# SureShot liquid cooler

## LIQUID COOLER/DISPENSER

### The Liquid Cooler/Dispenser provides a simple and efficient process for making hot liquids cool.

In less than three minutes, two pots of hot liquid, such as coffee or tea, will be cooled by simply pouring the hot liquid in the top tank of the dispenser. The cooled liquid automatically flows into the bottom tank to be stored and is then ready for a quick, clean dispense.

### The Liquid Cooler/Dispenser will allow you to expand your product line without adding new inventory – you can even reduce waste at the same time!

Coffee that is about to expire can be cooled to produce a fresh, new product that can be held for up to 12 hours. Your customers will love the increased menu variety, while you can enjoy increased sales and minimized waste.

### FEATURES AND BENEFITS

- Use “about to expire” hot coffee to produce iced coffee.
- Never again throw out expired ready-to-drink iced coffee.
- Compact countertop design.
- Tank stores up to four pots of cooled liquid to allow for quick dispense.
- Easily removable top and bottom tanks for cleaning.
- Unit “power on” and “in use” indication light.
- Coaxial coil heat exchanger with stainless steel product tube.
- Standard warranty is one year, on-site parts & labor.
- USA and Canada-wide Technical Service Network with SureShot Technical Assistance Center support.

### GENERAL REQUIREMENTS

- Requires a cold water supply line with a minimum of 6 liters (1.5 gallons) per minute.
- Water pressure should be between 25-75 psi.
- Requires access to free drain.
- Water Inlet - 1/4" male S.A.E. 45° flare fitting.
- Water Outlet - 3/8" OD x 1/4" ID.

### GENERAL SPECIFICATIONS - NORTH AMERICA (MODEL AC-LC2)

Capacity: Upper Tank = 3.6 L / 1 gal  
Lower Tank = 7.0 L / 1.8 gal  
Tanks are made of food-grade plastic.  
A/C Supply Voltage: 120 VAC, 60 Hz, 0.15 amp, 1 ph  
Dimensions (LxWxH): 25 1/4" x 7" x 26"  
Weight: 42lb / 19kg (empty)  
50lb / 23kg (full)
